Sheet: Notes (132 × 2)

1 General notes	Unnamed: 1
NaN	NaN
Please note: The Annual Population Survey (APS) was re-weighted in line with the results of the 2011 Census, in March 2015. The data in these tables have been revised in the light of that re-weighting exercise. Some very minor changes have been made to the definitions of UK born, French born and British and French nationalities.	NaN
NaN	NaN
The tables A to D show estimates of the UK population by country of birth. Tables E to H show estimates of the UK population by nationality.	NaN
NaN	NaN
The tables are produced using the Annual Population Survey (APS), which is the Labour Force Survey (LFS) plus various sample boosts.	NaN
NaN	NaN
The table descriptions are below:	NaN
NaN	NaN
Table A: Estimated population resident in the United Kingdom, by country of birth, for countries of the UK and regions of England.	NaN
Table B: Estimated population resident in the United Kingdom, by country of birth, for London boroughs, metropolitan districts, unitary authorities, and non-metropolitan districts within England; and unitary authorities within Wales. Sorted in alphabetical order, covering A to G.	NaN
Table C: Estimated population resident in the United Kingdom, by country of birth, for London boroughs, metropolitan districts, unitary authorities, and non-metropolitan districts within England; and unitary authorities within Wales. Sorted in alphabetical order, covering H to R.	NaN
Table D: Estimated population resident in the United Kingdom, by country of birth, for London boroughs, metropolitan districts, unitary authorities, and non-metropolitan districts within England; and unitary authorities within Wales. Sorted in alphabetical order, covering S to Z.	NaN
Table E: Estimated population resident in the United Kingdom, by nationality, for countries of the UK and regions of England.	NaN
Table F: Estimated population resident in the United Kingdom, by nationality, for London boroughs, metropolitan districts, unitary authorities, and non-metropolitan districts within England; and unitary authorities within Wales. Sorted in alphabetical order, covering A to G.	NaN
Table G: Estimated population resident in the United Kingdom, by nationality, for London boroughs, metropolitan districts, unitary authorities, and non-metropolitan districts within England; and unitary authorities within Wales. Sorted in alphabetical order, covering H to R.	NaN
Table H: Estimated population resident in the United Kingdom, by nationality, for London boroughs, metropolitan districts, unitary authorities, and non-metropolitan districts within England; and unitary authorities within Wales. Sorted in alphabetical order, covering S to Z.	NaN
NaN	NaN
All estimates in this spreadsheet are individually rounded to the nearest thousand. Totals may not add exactly due to this rounding.	NaN
NaN	NaN
All confidence intervals in this spreadsheet are also rounded to the nearest thousand. In particular, please note that a confidence interval which rounds to zero does not imply certainty, only that the confidence interval is less than +/- 500.	NaN
NaN	NaN

1 General notes	Unnamed: 1
When calculating the upper and lower confidence interval limits for a given estimate, please take into account that both the estimate and the confidence interval have been rounded to the nearest thousand.	NaN
NaN	NaN
NaN	NaN
2 Country of birth and nationality	NaN
NaN	NaN
Nationality refers to that stated by the respondent during the interview. Country of birth is the country in which they were born. It is possible that an individual's nationality may change, but the respondent's country of birth cannot change. This means that country of birth gives a more robust estimate of change over time.	NaN
NaN	NaN
There are three main reasons for differences between nationality and country of birth:	NaN
1. When people born abroad decide to remain in the UK, they often apply to become British nationals.	NaN
2. Some people born abroad have British nationality. For example, this may be the case for people whose parents were in the military services and were based abroad when they were born.	NaN
3. Some people born in the UK to migrant parents take the nationality of their parents.	NaN
NaN	NaN
NaN	NaN
