Definition note 定義說明 (2001). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 547,668 million NT$ / nominal GDP 10,119,429 million NT$ = 5.4120%, published to two decimals as 5.41%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2002). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 584,475 million NT$ / nominal GDP 10,630,911 million NT$ = 5.4979%, published to two decimals as 5.50%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2003). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 617,319 million NT$ / nominal GDP 10,924,029 million NT$ = 5.6510%, published to two decimals as 5.65%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2004). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 666,821 million NT$ / nominal GDP 11,596,241 million NT$ = 5.7503%, published to two decimals as 5.75%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2005). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 698,724 million NT$ / nominal GDP 12,036,675 million NT$ = 5.8050%, published to two decimals as 5.80%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2006). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 724,079 million NT$ / nominal GDP 12,572,587 million NT$ = 5.7592%, published to two decimals as 5.76%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2007). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 809,604 million NT$ / nominal GDP 13,363,917 million NT$ = 6.0581%, published to two decimals as 6.06%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2008). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 833,864 million NT$ / nominal GDP 13,115,096 million NT$ = 6.3580%, published to two decimals as 6.36%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2009). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 871,190 million NT$ / nominal GDP 12,919,445 million NT$ = 6.7432%, published to two decimals as 6.74%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2010). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 891,978 million NT$ / nominal GDP 14,060,345 million NT$ = 6.3439%, published to two decimals as 6.34%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2011). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 919,365 million NT$ / nominal GDP 14,262,201 million NT$ = 6.4462%, published to two decimals as 6.45%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2012). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 950,742 million NT$ / nominal GDP 14,677,765 million NT$ = 6.4774%, published to two decimals as 6.48%. MOHW compiles CHE within the OECD System of Health

Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2013). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 988,896 million NT$ / nominal GDP 15,270,728 million NT$ = 6.4758%, published to two decimals as 6.48%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2014). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,032,400 million NT$ / nominal GDP 16,258,047 million NT$ = 6.3501%, published to two decimals as 6.35%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2015). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,072,700 million NT$ / nominal GDP 17,055,080 million NT$ = 6.2896%, published to two decimals as 6.29%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2016). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,118,888 million NT$ / nominal GDP 17,555,268 million NT$ = 6.3735%, published to two decimals as 6.37%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2017). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,193,126 million NT$ / nominal GDP 18,012,387 million NT$ = 6.6239%, published to two decimals as 6.62%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2018). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,264,239 million NT$ / nominal GDP 18,420,039 million NT$ = 6.8634%, published to two decimals as 6.86%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2019). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,330,375 million NT$ / nominal GDP 18,974,097 million NT$ = 7.0115%, published to two decimals as 7.01%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2020). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,433,302 million NT$ / nominal GDP 20,023,752 million NT$ = 7.1580%, published to two decimals as 7.16%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4:

long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2021). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,548,961 million NT$ / nominal GDP 21,773,291 million NT$ = 7.1140%, published to two decimals as 7.11%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

Definition note 定義說明 (2022). MOHW current health expenditure (經常性醫療保健支出, CHE) as % of GDP: CHE 1,667,225 million NT$ / nominal GDP 22,820,430 million NT$ = 7.3058%, published to two decimals as 7.31%. MOHW compiles CHE within the OECD System of Health Accounts framework; Table 1 states that it is based on the latest national-accounts revision, so it can differ from earlier editions. Table note 4: long-term care services are included from 民國96年 (2007); the English version of that note in the PDF says "Since 1997", which does not match the Chinese, and the Chinese is followed here.

How this was confirmed 確認方式. Read directly from the official MOHW workbook (health_expenditure__MOHW_NHE2024_tables__retrieved_2026-10-17.xlsx, sheet 表1, downloaded from https://www.mohw.gov.tw/dl-99630-35f4025b-4521-4ff4-84e8-22979a53a7c3.html); identical to Table 1 of the published report (health_expenditure__MOHW_NHE2024_report__retrieved_2026-10-17.pdf, PDF page 18, printed page 12, downloaded from https://www.mohw.gov.tw/dl-99631-cfe880cf-a90b-4eba-b240-351bf8abfd75.html); the percentage recomputed from the CHE and GDP columns rounds to the published value.
