Values 數值

Year 年度	Value 數值	Grade 等級	Verification 查證結果	Source 來源	Reference date 基準日
2018	**10,375**	B	corrected & re-derived／已更正並重新導出	Instituto Nacional de Estadisticas (INE) and Servicio Nacional de Migraciones (SERMIG),	31 December
2019	**21,833**	B	corrected & re-derived／已更正並重新導出	Instituto Nacional de Estadisticas (INE) and Servicio Nacional de Migraciones (SERMIG),	31 December
2020	**53,356**	B	corrected & re-derived／已更正並重新導出	Instituto Nacional de Estadisticas (INE) and Servicio Nacional de Migraciones (SERMIG),	31 December
2021	**109,846**	B	corrected & re-derived／已更正並重新導出	Instituto Nacional de Estadisticas (INE) and Servicio Nacional de Migraciones (SERMIG),	31 December
2022	**291,149**	B	corrected & re-derived／已更正並重新導出	Instituto Nacional de Estadisticas (INE) and Servicio Nacional de Migraciones (SERMIG),	31 December

Definition note 定義說明 (2018). Reference date 31 December 2018. Modelled estimate of residents in an irregular situation under the REVISED 2023 methodology, which adds Mineduc school-enrolment and SERMIG biometric-registration records. Read from the chart on page 12 (year axis and series legend checked); the same year on the 2022 methodology is 5,975. Corrected on 2026-10-07: the first release held other years' values here.

Definition note 定義說明 (2019). Reference date 31 December 2019. Modelled estimate of residents in an irregular situation under the REVISED 2023 methodology, which adds Mineduc school-enrolment and SERMIG biometric-registration records. Read from the chart on page 12 (year axis and series legend checked); the same year on the 2022 methodology is 14,818. Corrected on 2026-10-07: the first release held other years' values here.

Definition note 定義說明 (2020). Reference date 31 December 2020. Modelled estimate of residents in an irregular situation under the REVISED 2023 methodology, which adds Mineduc school-enrolment and SERMIG biometric-registration records. Read from the chart on page 12 (year axis and series legend checked); the same year on the 2022 methodology is 27,162. Corrected on 2026-10-07: the first release held other years' values here.

Definition note 定義說明 (2021). Reference date 31 December 2021. Modelled estimate of residents in an irregular situation under the REVISED 2023 methodology, which adds Mineduc school-enrolment and SERMIG biometric-registration records. Read from the chart on page 12 (year axis and series legend checked); the same year on the 2022 methodology is 59,682. Corrected on 2026-10-07: the first release held other years' values here.

Definition note 定義說明 (2022). Reference date 31 December 2022. Modelled estimate of residents in an irregular situation under the REVISED 2023 methodology, which adds Mineduc school-enrolment and SERMIG biometric-registration records. Read from the chart on page 12 (year axis and series legend checked); the same year on the 2022 methodology is 115,059. Corrected on 2026-10-07: the first release held other years' values here.

How this was confirmed 確認方式. Value, year and methodology series read from the chart on page 12 of the archived document and checked against the label positions (audit of 2026-10-07).

> **Correction applied 已套用更正.** The first release assigned the chart values to the wrong years and mixed the two methodologies (2018-2020 labelled 2023 methodology, 2021-2022 labelled 2022 methodology, none placed under the year the chart gives).
