2019	**32.6**	A	read from raw API response／直接讀自 API 原始回應	OECD Income Distribution Database (IDD): Gini coefficient of equivalised household dispo	Year as labelled by the OECD IDD	OECD equivalised disposable income (not World Bank)
2020	**31.8**	A	read from raw API response／直接讀自 API 原始回應	OECD Income Distribution Database (IDD): Gini coefficient of equivalised household dispo	Year as labelled by the OECD IDD	OECD equivalised disposable income (not World Bank)
2021	**30.3**	A	read from raw API response／直接讀自 API 原始回應	OECD Income Distribution Database (IDD): Gini coefficient of equivalised household dispo	Year as labelled by the OECD IDD	OECD equivalised disposable income (not World Bank)
2022	**32.6**	A	read from raw API response／直接讀自 API 原始回應	OECD Income Distribution Database (IDD): Gini coefficient of equivalised household dispo	Year as labelled by the OECD IDD	OECD equivalised disposable income (not World Bank)

Definition note 定義說明 (2006). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.332).

Definition note 定義說明 (2007). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.331).

Definition note 定義說明 (2008). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.328).

Definition note 定義說明 (2009, 2011). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.329).

Definition note 定義說明 (2010, 2012, 2017). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.335).

Definition note 定義說明 (2013-2014). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.341).

Definition note 定義說明 (2015). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.325).

Definition note 定義說明 (2016). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.333).

Definition note 定義説明 (2018). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.33).

Definition note 定義説明 (2019, 2022). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.326).

Definition note 定義説明 (2020). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.318).

Definition note 定義説明 (2021). OECD IDD: Gini coefficient of equivalised household disposable income (after taxes and transfers), total population, 2012 income definition. The World Bank has no data for New Zealand; this concept (equivalised household income) differs from the World Bank's (income per person), so the value is flagged. The archive publishes 100 x the OECD value (0.303).
