Definition note 定義說明. DERIVED BY SUBTRACTION: total resident population (59,176 thousand) less UK-born (53,907 thousand), both rows of Table A, which is how ONS reports "born abroad". ONS warns that UK-born plus foreign-born may not equal the total (some communal establishments are excluded), so this approximates the foreign-born. Survey estimate (Annual Population Survey, 12 months January-December 2004), rounded to the nearest thousand; 95% confidence interval of the total +/- 301 thousand. These historical editions were re-weighted to the 2011 Census in March 2015, so they are not on the basis of the releases of the time. This source differs from the OECD values used for 2006-2008 and the Eurostat values used from 2009, and no overlap with this edition exists to measure the difference.

How this was confirmed 確認方式. Confirmed in the archived source file (Table A, rows Total and United Kingdom).
