Definition note 定義說明. estimated overstayer population (people unlawfully in New Zealand), reference date October 2010. Register-derived estimate from the INZ overstayer estimate series; INZ notes the methodology was revised for the December 2017 estimate, so figures up to October 2014 / January 2016 are on the older basis. The same table also reports 15,760 for April 2010; the later 2010 estimate is used here.

How this was confirmed 確認方式. The published figure appears in the archived source document.
